

SHAHU ABHAY SHIVBODHAN

Python Django Developer | Data Analyst | ERP Executive

Ahmedabad, Gujarat | +91 9909794375 | abhayshahu7513@gmail.com

PROFESSIONAL SUMMARY

MCA student and versatile technology professional with hands-on experience in Python Django web development, MySQL database administration, and full ERP lifecycle management at Comptech Equipments Ltd. Skilled in building REST APIs, integrating React.js frontends, designing Crystal Reports, and managing Corporate Munim ERP from installation to daily operations. Proven ability to extract business insights through structured data analysis, Excel reporting, and Power BI. A disciplined problem-solver who delivers reliable, well-documented solutions across development, data, and enterprise systems.

PROFESSIONAL EXPERIENCE

Database Analyst & Web Application Developer

Sep 2024 – Present

Comptech Equipments Ltd. — Gandhinagar, Gujarat

- Administer MySQL database servers — handling backups, performance tuning, indexing, and proactive health monitoring.
- Design and execute complex SQL queries to extract, cleanse, and transform datasets for business reporting.
- Develop and maintain Crystal Reports for management — covering sales performance, inventory, and financial KPIs.
- Extract and organise ERP data into structured Excel and Google Sheets dashboards for departmental use.
- Manage end-to-end operations of Corporate Munim ERP including installation, configuration, user roles, workflow setup, and troubleshooting.
- Develop enterprise web applications using Python Django REST Framework with modular backend architecture.
- Build and expose RESTful APIs consumed by React.js frontend, implementing JWT authentication and role-based access.
- Integrate MySQL database with Django applications using ORM and raw SQL for efficient data handling.
- Establish secure data pipelines between Corporate Munim ERP and the web application for real-time synchronisation.
- Test and debug API endpoints and application features using Postman and Django's built-in testing tools.

Software Customisation Intern

May 2024 – Aug 2024

Horizon CAD Solutions — Ahmedabad, Gujarat

- Customised CRM, Payroll, and ERP software modules post-sales based on specific client business requirements.
- Gathered client requirements and translated them into functional software configurations and workflow improvements.
- Provided hands-on user training and documentation for customised ERP and CRM deployments.

Python Developer Intern

Jul 2023 – Apr 2024

InfoLabz Pvt. Ltd. — Ahmedabad, Gujarat

- Developed full-stack web applications using Python, Django, HTML, CSS, Bootstrap, and SQLite.
- Built backend business logic, URL routing, models, views, and templates following Django's MVT architecture.
- Led development of BookYourEV — a production-ready EV rental platform with multi-module architecture.

PROJECTS

SHAHU ABHAY SHIVBODHAN

Python Django Developer | Data Analyst | ERP Executive

Ahmedabad, Gujarat | +91 9909794375 | abhayshahu7513@gmail.com

Machine Warranty & Service Tracker

Jan 2025 – Present

Comptech Equipments Ltd.

- Building a Django REST API backend with React.js frontend to track machine sales, warranty transfers, AMC contracts, and service history across dealer-customer chains.
- Designed a normalised MySQL database schema and implemented automated ERP-to-web data sync pipelines for real-time updates.
- Created management dashboards displaying service performance metrics, warranty expiry alerts, and dealer-wise distribution data.

BookYourEV — Electric Vehicle Rental Platform

Jul 2023 – Apr 2024

Final BCA Project — InfoLabz Pvt. Ltd.

- Built a full-stack three-module platform (Admin, Customer, Owner) using Django, HTML/CSS, Bootstrap, and SQLite.
- Implemented vehicle listings, booking workflow, simulated payment gateway, and Django authentication system.
- Managed complete SDLC from requirement gathering and database design through to final deployment.
